About us

Essential products, *exceptional care*

Croft is an independent, third-generation, family owned company that has worked with Australian businesses for over 75 years.

We provide value by being big enough to compete and offer the best products at competitive rates and small enough to care for each of our clients like family. It's this level of service and pride in our work that we know benefits all within the Croft community.

Put simply, it's "Essential products, exceptional care."

We have *Australian businesses' supply needs covered*

Total Supply Solution

Croft is your one-stop solution for cleaning, catering, health and hygiene supplies with prices and service trusted by some of Australia's most prominent government, commercial and not-for-profit organisations.

We continually work with our trade partners to identify innovative, sustainable, and cost effective system solutions, producing quality outcomes for our clients.

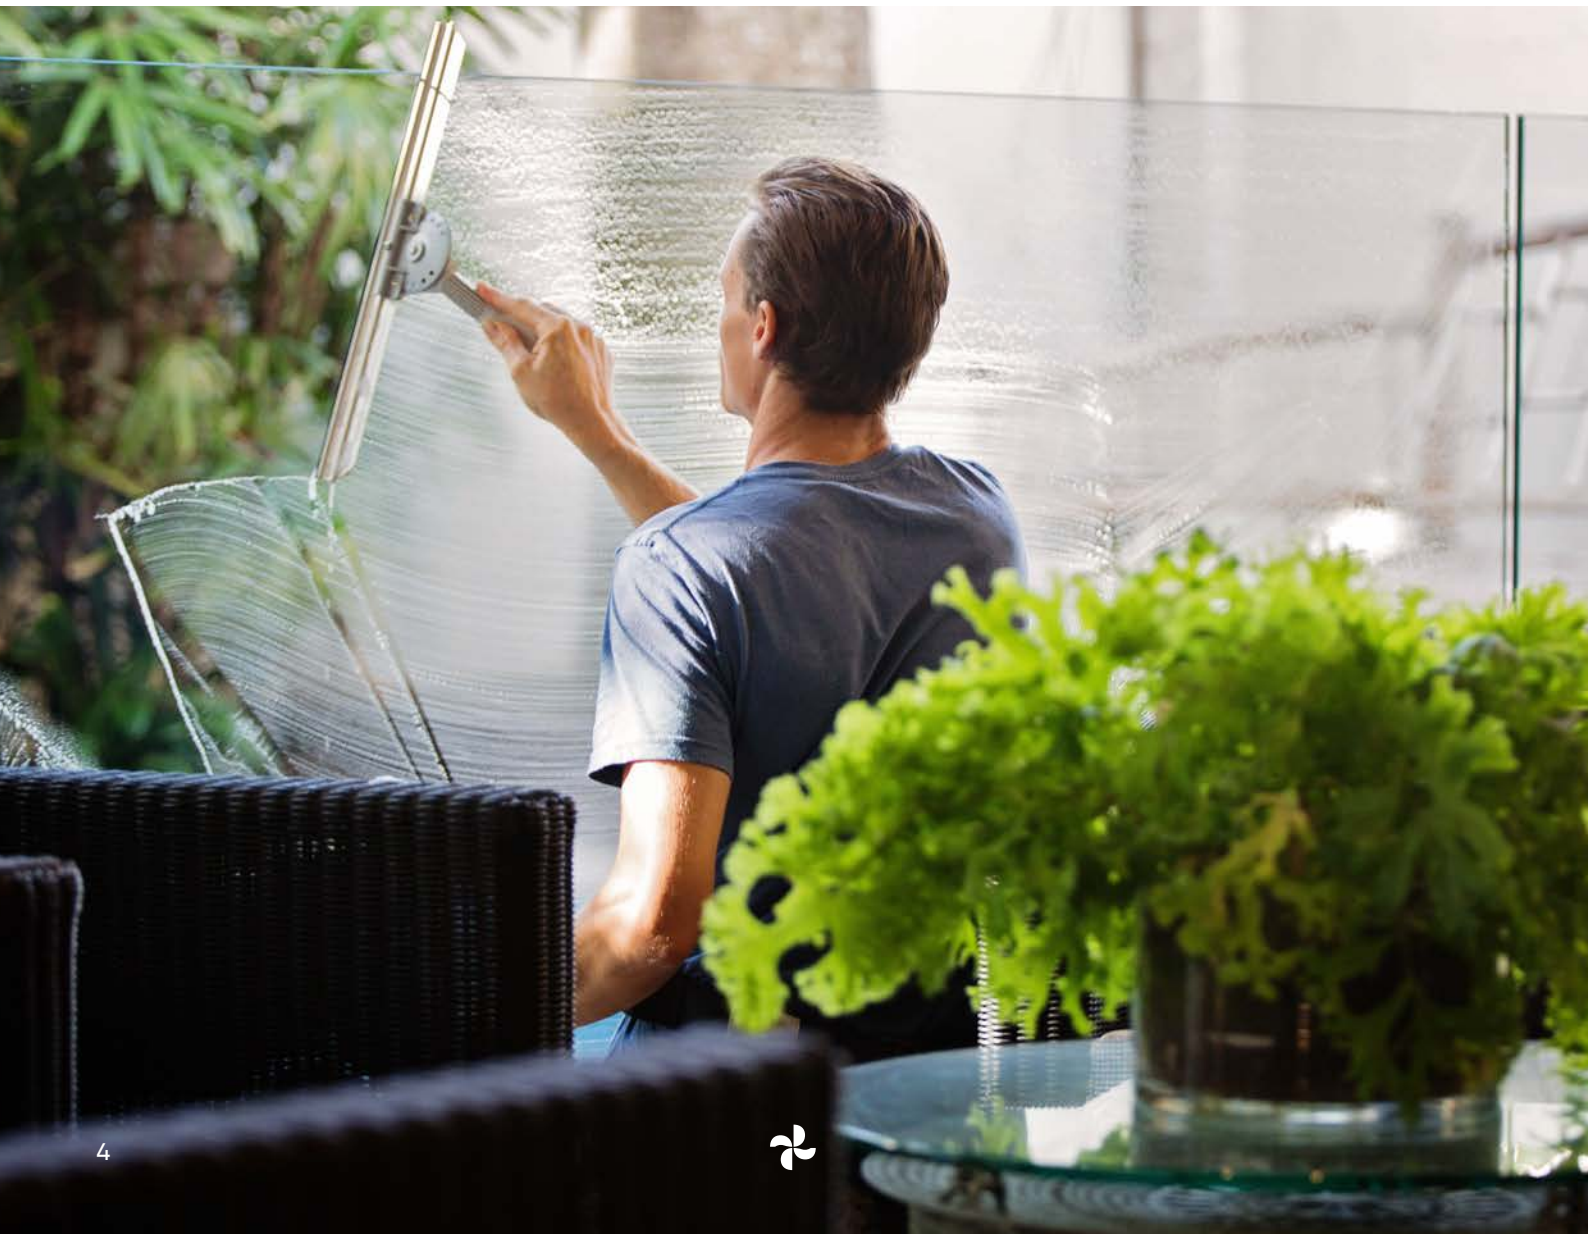

Our expertise

Putting confidence in *your compliance*

With the increasing amount of complexity, compliance and regulation entering the industry, Croft saw the need to further support our network of customers. After years of learnings, collaboration and consultation with operational experts, Croft developed propriety systems and products to lessen staff burden, create efficiencies and deliver cost savings in the workplace.

Croft partner with you to ensure your teams are equipped with the tools to exceed hygiene, WHS and compliance standards while creating greater efficiencies.

Product & Training Experts

We understand the need to recruit, retain and train the best people in the industry. Our training platforms are designed around a framework that will assist in providing a safe, risk-free workplace and a more efficient and effective operating team

Customise & Innovate your Product Range

We see the need to provide you with the most comprehensive and competitive range in the marketplace. Over 75 years of business has provided us with strong manufacturer relationships and internal expertise so we are always at the forefront of product innovations.

Online Procurement Platforms

We understand the need to reduce the number of manual processes, increasing accuracy and efficiencies. Our online platforms can be tailored to meet your requirements in a variety of ways.

- Weekly / Monthly / Yearly budgets can be set for each site or department
- Manager order approval restrictions can be applied
- Locked and contracted basket of goods to prevent unauthorised ordering

Customised Management & Reporting

We understand designing and tailoring reports can create efficiencies and deliver cost savings, removing paperwork, approvals and double-handling. Working to identify these opportunities creates value for our clients.

- Customised reporting and invoicing to meet your operational requirements.
- General ledger & cost centre coding to create efficiencies.
- Centralised account management to harmonise your operation.

Industry Best Customer Care

The ability to be flexible, personable and responsive in today's bureaucratic environment is critical to our success. Controlling customer service teams, distribution network and supply chain is key.

- Our fleet of company drivers adhere to your specific drop requirements.
- All warehouses are strategically located within 20 minutes of the CBD.
- Our flexibility and responsiveness to your urgent needs is an industry benchmark, with no red-tape.

Confidence in Supply & Australian Owned

Long term partnerships built over 7 decades has allowed us to refine our operations with our suppliers and manufacturers to exceed expectations in the toughest of times.

- 30 years of importing and manufacturing experience.
- 75 years of long-term manufacturer relationships.
- Industry standard DIFOT.
- National distribution.

Sustainability & Eco Friendly

Products within our range are sourced from resource efficient & reliable companies who strive to reduce their environmental impact. Consideration is given to manufacturing processes, raw materials & waste disposal when selecting these products. We also ensure Manufacturers and products have Sustainable and Eco Friendly certifications.

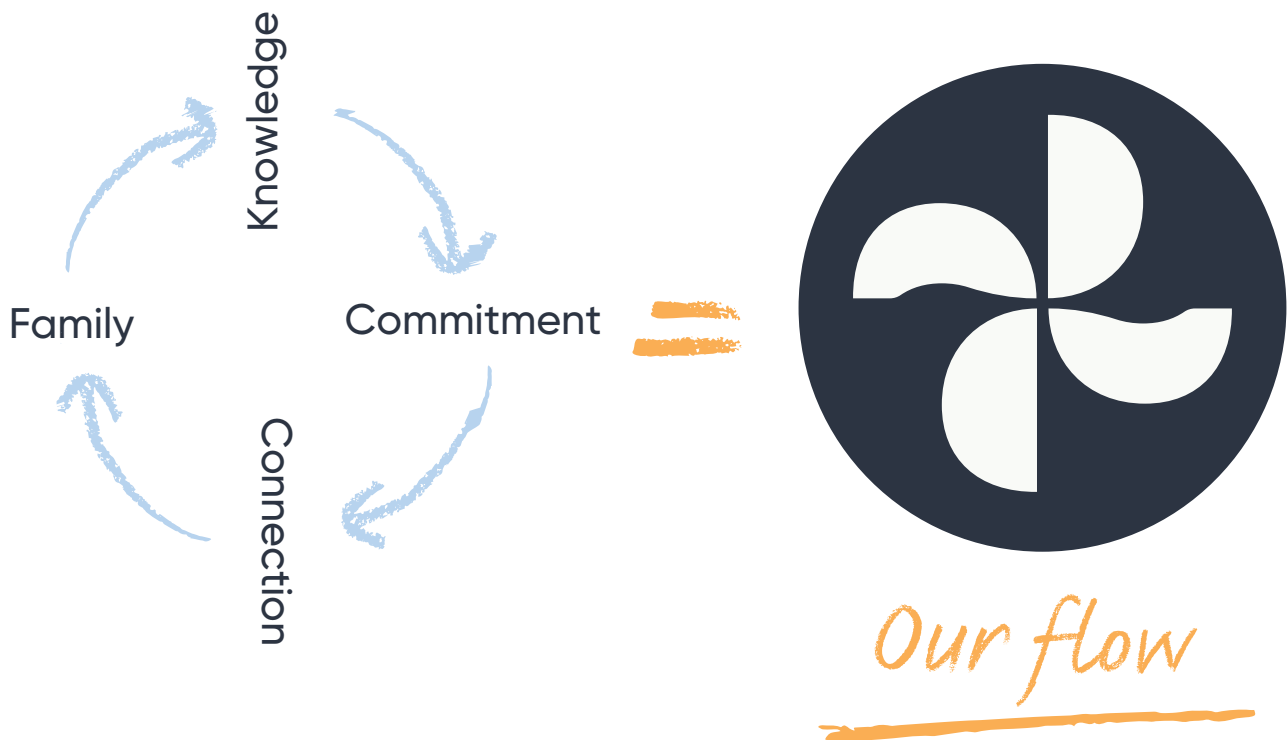

Australian Made and Manufactured

We continue to challenge ourselves and our partners to improve our products, supply chains and operations in a sustainable way. This includes sourcing and supporting Australian owned and manufactured quality products, that is sustainable in our current global environment.

Our Philosophy

Our Purpose Is to unconditionally support each other (family) and our customers *no matter what!*

Family – Our work team is a family and we strive to unconditionally support each other for the further benefit of all of us and our customers.

Knowledge – We guide and direct our customers to create safer and more efficient workplaces. Seeking ways to improve ourselves and customers is our true strength.

Commitment – Having the courage to persevere when things get tough and always find a way. We say something, we do it! We never let our customers or our team mates down.

Connection – Our great relationships with our customers and teammates make life simply, better!! Connecting with people is key, never are they a number or colleague.

ESG Initiatives

We are small enough to *care*, big enough to make an *impact* and strong enough to *influence* change.

Building a Genuinely Strong, Safe and Diverse Team

Indigenous Engagement & Support

Establishing Socially Conscious Supply Chains

Providing Sustainable Solutions to our customers

Do our part for climate & environment

Creating a safer environment for customers

care
impact
influence

Making working
life *simpler,*
smoother & safer
